Current Opening: Dental Laboratory Technician – Removable Prosthetics Specialist

Position Summary:
The Removable Prosthetics Specialist is a master craftsman of full and partial removable restorations (Dentures, Partial, Appliances) and is familiar with all parts of the restoration building process, including but not limited to Setup, Waxing, Process, Ivocap Processing®, Try-in, Acrylics, Finish, and all forms of restoration types (i.e., Valplast™).

Removable Prosthetics Specialists are the backbone of the Pittman Dental Organization. This position is in a high paced and challenging environment that prizes efficiency and quality. At Pittman Dental, we focus on advancement opportunities as they are key to employee growth, and we are currently looking for technicians skilled in all areas of work.

Benefits include 401(k), Flexible Schedule (Day and Night shift available), Health, Dental, Vision, Industry Competitive Salary, in house continuing education opportunities and training program, opportunity for advancement, half day Fridays, company events, and CDT training bonus program.

Qualifications:
• Experience in one or more aspects of the Removable Prosthetics fabrication process
• Possess better than average ability to pay attention to details.
• Ability to work well within deadlines
• Possess ability and desire to learn and adapt over time
• Certified Dental Technician certification preferred but not required
• PTC certification in a specialty area a plus.
• GED/High School Diploma or better required.

Why Pittman Dental?
Here at Pittman, we’re growing and expanding in an industry that is experiencing a major shift in technology and consolidation of smaller entities. The days of smaller labs servicing very specific types of work are slowly coming to a close as technology adapts and creates opportunity to allow a larger laboratory to specialize in all areas of work. Here at Pittman, we’re known for our quality, service, and expertise. We’re proud of our family owned, 40 year heritage.

We are the laboratory authority in the south east and are looking to expand nationwide. Join our team and become part of the Pittman Dental story of success.
